Summary:

Recent full-stack developer graduate with a strong interest in cybersecurity, equipped with expertise in Python, data structures, algorithms, Postgres SQL, and Azure. Seeking an entry-level position in cybersecurity to leverage technical skills and knowledge.

Skills:

- Backend Development: Proficient in Python, with strong knowledge of data structures and algorithms.
- Database Management: Skilled in working with Postgres SQL, ensuring data integrity and security.
- Cloud Computing: Familiarity with Azure cloud services for secure application deployment.
- Full-Stack Web Development: Experienced in HTML, CSS, JavaScript, React, and Node.js.
- Cybersecurity: Pursuing CompTIA Security+ certification.
- Problem Solving: Strong analytical and troubleshooting skills.
- Communication: Effective at conveying technical concepts to non-technical stakeholders.

Education:

Full-Stack Web Development Certification (Expected Graduation: [Month Year])

NuCamp

- Extensive training in web development with a focus on back-end technologies and data security.
- Completed multiple projects to apply Python, data structures, and algorithms to real-world scenarios.

Bachelor of Science in Applied Psychology

University of South Florida

- Honors Graduate (May 2017)

Associate of Science in Biology

Broward College

(May 2012)

Certifications:

- In Progress: CompTIA Security+ (Expected completion: [Month Year])

Projects:

- Developed secure web applications with Python, utilizing data structures and algorithms to enhance performance and security.
- Managed databases using Postgres SQL to ensure data integrity and applied security best practices.
- Utilized Azure cloud services for deploying and securing web applications.

Experience:

Investment Analyst, Resicap, Atlanta, GA

(September 2021 – October 2022)

- Successfully sourced investment properties and conducted data analysis.
- Applied data security principles in managing sensitive information.
- Collaborated with cross-functional teams to maintain property compliance.

T-Mobile, Mobile Expert

(September 2012 – September 2021)

- Developed problem-solving and communication skills while providing technical support to customers.

This updated resume places a strong emphasis on your backend development skills

and knowledge in Python, data structures, algorithms, Postgres SQL, and Azure. Tailor it to specific cybersecurity job applications by highlighting relevant projects and experiences related to cybersecurity, data security, and other relevant skills for the positions you're interested in. Best of luck in your job search!
